

METAL KEYPAD

• Rugged Presco™ Keypad

Features

The Metal Keypad is a vandal and weather resistant keypad designed to be used in harsh environments. Designed to be used in conjunction with the CS Network Access Control System it provides the added benefit of rugged durability.

The Keypad has a specially designed 'Presco™' Data output. The 'Presco™' Data output has been designed to be a more robust data signal and uses low cost non shielded cable (only three wires are required).

Up to 999,999,999 possible code combinations
Audible confirmation of all actions

Options:

- Illuminated or non-illuminated keypad
- Surface mount adaptor box
