HD IP CCTV Solutions

Specifically tailored towards for large sites and industrial buildings, DASH provide a secure environment through our unique HD IP CCTV solutions, utilising Hikvision's Smart IPC cameras and NVR products.

Our comprehensive solutions feature, local recording, remote access, amazing night vision, alarm features as well as site specific analytic settings. Our systems are suited for industrial sites, buildings, car parks and entry ways, systems can be expanded and adapt as your business grows.

Why Choose? **HIKVISION**

Hikvision is the world's largest supplier of video surveillance products and solutions. The company specializes in video surveillance technology, as well as designing and manufacturing a full-line of innovative CCTV and video surveillance products. The product line ranges from cameras and DVRs to video management software. Since its inception in 2001, Hikvision has quickly achieved a leading worldwide market position in the security industry.

Hikvision possess the world's largest R&D team and state-of-art manufacturing facilities; both allow Hikvision's customers the benefit of world-class products that are designed with cutting-edge technology. As further commitment to its customers, Hikvision annually reinvests 8% of its revenue into R&D for continued product innovation and improvement.

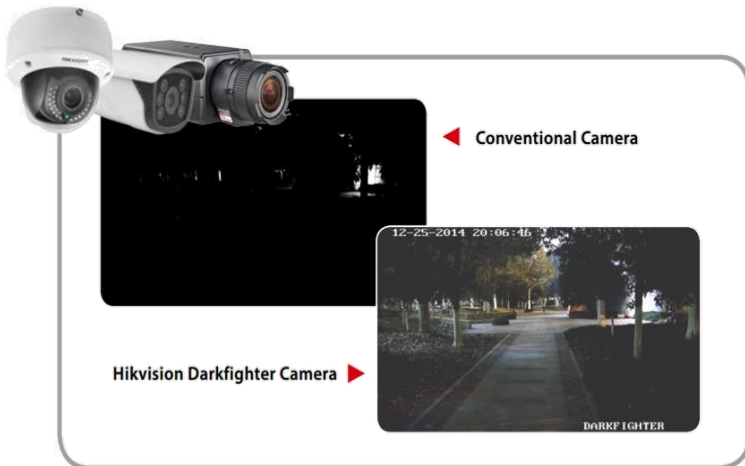

Smart IPC by **HIKVISION**

Intrusion Detection

In the case of intrusion detection, the 4-line camera simultaneously auto-triggers the alarm and event recording. Applying the latest algorithms, it automatically analyzes the intruder's dimension ratio to reduce false alarms. These features are extremely beneficial for defined area protection.

Darkfighter Network Camera

Anti-erosion Housing

Hikvision's 4-line outdoor IP cameras come with special painting anti-erosion housing that is resistant to sea salt (customization process required).

People Counting

This series supports counting of individuals via a defined area. Additionally, a statistical report is generated to help end users better evaluate their customer flow data and trends.
